After stoking the fires of white supremacy and racism your entire presidency, you have the nerve to feign moral superiority before threatening violence? 'When the looting starts the shooting starts'??? We will vote you out in November.

## QUICK TALK

At 22, she has the kind of career most artists chase for decades: six Grammys, countless chart-topping singles and more than 22 million albums sold. But **Swift** still unwinds like the rest of us. "I'll lie in bed with my cat and watch Law & Order," she says. "Then I'll order food and eat it." Here the Nashville dweller--whose new album, Red, drops Oct. 22--lets loose with **TIME**.

You experiment with pop, rock and even dubstep on this album. But you're known as a country artist. Are you worried how fans will respond?

Almost every **time** I put something out, there's the word too put in front of it--too pop, too country, too rock. So I've kinda stopped worrying about it. I'd rather be too something than not enough something.

People love to guess which boys you're singing about. [**Swift** has been linked to John Mayer and Jake Gyllenhaal, among others.] Does part of you enjoy that?

Well, I don't really read any of it. Really? The only way I hear gossip is if it's big enough and loud enough for my friends to bring it up to me. Or if it's, like, a big untrue ordeal from my publicist. It makes my life a lot more livable.

It's almost Election Day. Are you following the race? I try to keep myself educated and informed. But I don't talk politics, because it might influence other people. And I don't think I know enough yet in life to be telling people who to vote for.

You've got lots of nicknames--Swifty, T-Swizzle, etc. Are there any you secretly hate?

When I was on the Brad Paisley tour, they called me Tater Tot. And the name on my dressing room was changed to Tater **Swift** every single day. It was like being

## The Rolling Stone Interview: Taylor Swift

 Listen   American Accent    

**TAYLOR SWIFT** bursts into her mom's Nashville kitchen, smiling, looking remarkably like **Taylor Swift**. (That red-lip, classic thing? Check.) "I need someone to help dye my hair pink," she says, and moments later, her ends match her sparkly nail polish, sneakers, and the stripes on her button-down. It's all in keeping with the pastel aesthetic of her new album, *Lover*; black-leather combat-**Taylor** from her previous album cycle has handed back the phone. Around the black-granite kitchen island, all is calm and normal, as **Swift's** mom, dad, and younger brother pass through. Her mom's two dogs, one very small, one very large, pounce upon visitors with slurping glee. It could be any 29-year-old's weekend visit with her parents, if not for the madness looming a few feet down the hall.

In an airy terrace, 113 giddy, weepy, shaky, still-in-disbelief fans are waiting for the start of one of **Swift's** secret sessions, sacred rituals in **Swift-dom**. She's about to play them her seventh album, as-yet unreleased on this Sunday afternoon in early August, and offer copious commentary. Also, she made cookies. Just before the session, **Swift** sits down in her mom's study (where she "operates the Google," per her daughter) to chat for a few minutes. The black-walled room is decorated with black-and-white classic-rock photos, including shots of Bruce Springsteen and, unsurprisingly, James **Taylor**; there are also more recent shots of **Swift** posing with Kris Kristofferson and playing with Def Leppard, her mom's favorite band.

In a corner is an acoustic guitar **Swift** played as a teenager. She almost certainly wrote some well-known songs on it, but can't recall which ones. "It would be

**The Vikasa Yoga Retreat** sits on a hillside on the Thai island of Ko Samui, a cluster of gabled bungalows rising on stilts above lush greenery, overlooking a turquoise sea. But when Vikasa's founder Kosta Miachin decided to open a studio in the capital of Bangkok, one of Asia's most dynamic urban centers, he knew he couldn't simply transport the retreat's rustic aesthetic to the heart of the metropolis. The new facility would have to be both meditative and modern, its peaceful interior also a reflection of the vivid pulse of the city outside.

Located in the slick neighborhood of Sukhumvit, surrounded by apartment towers and cutting-edge projects by firms like Finland's ALA Architects and Thailand's Department of Architecture, the 5,000-square-foot Vikasa on 24 occupies the second floor of a concrete, steel, and glass building—a conventional urban structure built originally as a showroom for the luxury apartment block that rises behind it.

"The client wanted something non-traditional, immersive, and holistic," says Australian architect Patrick Keane, founder and director of Enter Projects Asia, the multinational firm Miachin hired to design the center. A Princeton University School of Architecture graduate, Keane has been interested in the use of rattan as a building material since his earliest projects in Thailand, where he has practiced for the last six years. So, treating the button-down structure as a vessel to be explored, the architect introduced a series of sinuous rattan tubes that snake through the interior, occasionally ballooning overhead like clouds. This nexus of oversize biomorphic pipes, which he describes as "a material guide to the space," seems alive, more sentient being than architecture. During the day, they connect the various parts of the studio like a complex system of veins and arteries; at night, lit from within by LEDs,

*Previous spread: Teak marine plywood paneling surrounds a large studio at Vikasa on 24, a yoga center in Bangkok by Enter Projects Asia. Opposite: In the reception area, a rattan tube snakes across the ceiling before swooping down to form the front desk and adjoining bench. Top, from left: Studio flooring is polished cement. One end of reception's tube terminates as a globular lantern hanging above the entry staircase. Bottom: Another tube pierces a studio wall, loops across the ceiling, and exits where it entered.*

## 对世界法律影响重大的吉迪恩抢劫案

作者: 陈晋 发布时间: 2007-06-22 09:08:44 [打印](#) [字号: 大 | 中 | 小](#)

1961年, 在美国的佛罗里达州帕拿马市发生了一起改变美国被告人律师帮助权的案件, 这就是吉迪恩抢劫案。1963年, 美国最高法院终于在吉迪恩诉温赖特 (Gideon v. Wainwright) 一案中裁定, 州法院应为被控犯刑事重罪的穷苦被告人免费提供辩护律师。

美国佛罗里达州的一个贫穷的白人克拉伦斯·吉迪恩 (Clarence Earl Gideon) 是一个51岁的流浪汉, 只有高中文化水平。1961年, 他因涉嫌闯入一家弹子房盗窃而被捕, 被控从自动售货机中盗窃了一些硬币和罐装饮料。吉迪恩请不起律师, 他要求法庭免费为他提供一位律师, 结果遭到法官拒绝。吉迪恩只好草草查阅了一些法律方面的书籍自行做无罪辩护。可是他毕竟没受过正规的法律专业教育和律师训练, 结果辩护效果不

## 检索技巧

- 截词符号(\*)用于检索变形体, 单复数
  - **Protect\***可以检索到**protecting, protected, protection etc**
  - **Analy\***可以检索到**analysis, analyze**
- 短语检索 (“ ”) 用于检索固定短语
  - **“SWOT analysis”** 可以检索到固定格式的词组, 位置顺序保持不变。
- 通配符: 适用于一个字母(?)用于检索英美单词拼写差异
  - **organi?ation** 可以检索到 **organisation or organization**
- 通配符: 适用于多个字母(#)用于检索英美单词拼写差异
  - **behavio#r will** 可以检索到 **behavior or behaviour**

## 布尔逻辑运算符

- **AND** 用于缩小检索范围，类似于“交集”概念
- “*e-commerce*”*and* “*marketing strategy*” 会检索到的结果中既包含“电子商务”也包含“市场战略”。
- **OR** 用于扩大检索范围，类似于“并集”概念
- *college or university* 会检索的结果中或者包含college，或者包含university
- **NOT** 用于排除检索结果中不需要的项，类似于“非”的概念
- *Cookies not computer* 会检索的结果只包含和烘焙曲奇相关，不包含和计算机浏览历史记录相关的结果。

New biotic stresses have emerged around the globe over the last decades threatening **food safety** and **security**. In 2016, scientists confirmed the presence of the devastating wheat-blast disease in Bangladesh, South Asia—its first occurrence outside South America. Severely blast-affected wheat fields had their grain yield wiped out. This poses a severe threat to **food security** in a densely-populated region with millions of poor inhabitants where wheat is a major staple crop and per capita wheat consumption has been increasing. As an ex ante impact assessment, this study examined potential wheat-blast scenarios in Bangladesh, India, and Pakistan. Based on the agro-climatic conditions in the epicenter, where the disease was first identified in Bangladesh in 2016, this study identified the correspondingly vulnerable areas in India, Pakistan and Bangladesh amounting to 7 million ha. ### Ehsan Hoque

University of Rochester

If you want to be the life of the party, practice by talking to a machine first.

Can computers teach us to be our best selves? Ehsan Hoque, a researcher at the University of Rochester, believes so. He has created two computer systems that train people to excel in social settings.

One program has a virtual businesswoman that can recognize your expressions and statements so she can nod, smile, and prompt you with further questions as you chat with her. At the end of the conversation she'll give you feedback about your interpersonal

performance, including your body language, intonation, and eye contact.

Hoque also designed a pared-down mobile version, free for anyone with Internet access to use. There's no animated character; instead, it records video and sends you a write-up about your social skills, noting the speed of your speech, the pitch and loudness of your voice, the intensity of your smiles, and whether you overused certain words.

All of Hoque's research comes back to his brother, a teenager with Down syndrome. Hoque is his brother's primary caretaker and has seen how difficult social interactions of any kind can be for him, especially in school. But Hoque hopes his tools will be useful to all kinds of people—individuals with Asperger's, customer service representatives, nervous students with looming class presentations, or even just someone gearing up for a date or an interview. —Julia Sklar

## QUALCOMM Incorporated SWOT Analysis

### SWOT ANALYSIS

Qualcomm Incorporated (Qualcomm) is a provider of wireless technologies worldwide. Research and development, strong market presence and being a first mover advantage are its major strengths, whereas concentrated customer base and high level of indebtedness are major concerns for the company. In the future, intense competition, rapid technological changes and threats on cyber-security could pose a difficult for the company. However, 5G initiatives, positive outlook of semiconductor market and strategic initiatives are likely to provide growth opportunities to the company.

Foreign markets that are neither strictly localized nor thoroughly internationalized can be approached in three ways. Firms employing an adaptive strategy adjust their products and business strategies on a country-by-country basis. Regionalization behaves similarly but recognizes common traits shared by groups of countries. Finally, arbitrage strategies try to create value by exploiting differences among countries. In order to illustrate these points, the experiences of several companies are drawn upon, including Coca-Cola and GE Medical Systems.**入藏编号:** [5623c](#)**工具**

### Getting Globalization Right

---

(edited for clarity)

#### Globality and Globaloney

Globalization is a little bit different from some of the things that we've looked at, because it is something that people tend to have strong intuitions about, not just from their business experience, but from the non-business components of their lives. And in particular, globalization is something that seems to inspire very binary images. And we can think of a number of different binary images of this sort. There's Tom Friedman's *The Lexus* (as in a modern product) and *the Olive Tree* (a traditional product). There's Benjamin Barber's "Jihad vs. McWorld," and you can guess what that is about. My two personal favorites are this opposition between globality and what Claire Booth Luce originally talked about as globaloney, a notion subsequently recycled by Paul Krugman. And these are frequently very helpful at sorting out people in terms of the attitudes they bring to bear to globalization. Let's just take a little bit of the data before we roll forward and think about what this means for strategy.

mystery of why there is so little trade, rather than so much trade. And what I have up on the slide are the results of a study that really inspired a lot of people in the profession to start thinking very hard about why trade was so small, rather than why trade is so large.

People in particular took Canadian data on the extent to which Canadian provinces trade with each other, and compared it with the extent to which Canadian provinces trade with U.S. states. And they did multi-variate regressions, controlled for the size of the states, controlled for physical distance, all the usual kinds of things. What they found after that, back in 1988 when NAFTA was just unfolding, was that Canadian provinces trade twenty times as much with each other, after normalizing for all this variation, than they do with U.S. states at a similar distance, of a similar size, etc. NAFTA has reduced that number a little bit. That multiple had come down to twelve by the mid-1990s. But the interesting thing to remember here is that the multiple still seems like it's in double-digits. And this is really remarkable because if you think of the United States and Canada, these are almost natural trading partners, right next to each other, common border, general friendliness—despite some recent tiffs between Prime Minister Chrétien's people and the Bush administration—and the largest bilateral trading relationship in the world.

So if trade within Canada is so much better developed than trade across this apparently porous border with the United States, that really suggests to us that the levels of trade that we're observing, while much higher than in the past, stopped very far short of being at the level that we would expect to see them at if there wasn't a national border between Canada

This article discusses the sources and content of the **international business law**. Trading nations have entered into a series of treaties and organizations to promote free trade and end discriminatory or isolationist practices. The WTO is the premier organization that negotiates and regulates agreements among nations. This article will take look at the processes that establish **international business law** and the general features of the **law**.

Keywords: Foreign direct investment; **International business transactions**; **International Law**; **International Trade**; Outsourcing; Treaty; World Trade Organization; Comparative advantage

[Law > International Business Law Overview](#)

**International business** is a critical part of the world economy that shapes the fortunes of individuals and entire nations. This article provides an overview of the sources, content and consequences of the "**International business law**" that regulates business across borders. The goal is to identify major themes, mechanisms and institutions that govern **international business**. **International business law** embraces many specific fields of practice

that relate to a wide array of business transactions. Each type of **international commerce** (export and import of goods and services, foreign direct investment, joint ventures, research and development arrangements, franchising, sale and distribution arrangements and licensing of intellectual property) has a distinct body of **law**.

To introduce the idea of **international law** it helps to start by contrasting it with **domestic law**. **Domestic laws** are **law** because a legislature has the power, under our political system, to pass legislation binding people within its jurisdiction. Accordingly, a court has the authority to apply the **law**. The power to do so comes from the sovereignty of the nation. A sovereign has supreme and ultimate authority over affairs and individuals within its borders and does not have to answer to any higher authority. Each nation is sovereign.

On the other hand, **international law** involves an arrangement between sovereign nations. As a matter of theory, it may seem strange that **law** could operate on sovereigns, when neither sovereign state has to account to any higher power and can ultimately behave as they wish. **Law** that does not have to be followed is no **law** at all, some would argue. However, despite this theoretical problem, nations do, in practice, obey **international law**.

**International law** arises from the willingness of each nation to bind itself. A nation will do so because adherence to the **law** is in its best interest. Generally, nations have a self interest in promoting a systematic rule of **law** to foster predictability and stability in **international affairs** over the long term. While other nations and **international bodies** often lack the authority to compel compliance, if a nation decides to behave contrary to an **international law**, there still may be consequences. The violating nation's image may be tarnished both at home and abroad, economic sanctions may be imposed; in short, the country could lose the benefit of reciprocal treatment from other nations.

When violations do occur they are rarely flagrant and not usually tolerated silently by others. Protest often breaks out due to perceived violations of **international law**. Violators themselves concede the authority and importance of the **law** by usually trying to explain their actions on legal grounds.

**International law** largely arises from three categories: general principles, customary **international law** and treaties. General principles are fundamental understandings common to the world's great legal systems. When an advocate can show that almost every nation agrees on a principle, then that principle can be elevated to a binding rule of **international law**. An example of a general principle would be the rule of good faith in **international obligations**. Of course, the more abstract a principle is, the easier it would be to find consensus, but the less useful it would be in practice to resolve a specific problem. This paradox limits the practical use of general principles to situations where a party cannot find a more concrete alternative.

法律>国际商法  
概观

国际商业是影响个人和整个国家财富的世界经济的重要组成部分。本文概述了管理跨境业务的“国际商业法”的来源, 内容和后果。目标是确定管理国际业务的主要主题, 机制和机构。国际商业法涵盖了许多与各种商业交易相关的特定实践领域。每种类型的国际(商品和服务的出口和进口, 外国直接投资, 合资企业, 研究和开发安排, 特许经营, 销售和分销安排以及知识产权许可) 具有明确的法律体系。

引进的想法国际法律它有助于通过与国内对比它来启动法律。国内法是法律, 因为立法机关在我们的政治制度下有权通过其管辖范围内的人的立法。因此, 法院有权适用该法律。这样做的权力来自国家的主权。一个主权者对其境内的事务和个人拥有最高和最终的权力, 并且不必回答任何上级当局。每个国家都是主权国家。

在另一方面, 国际法律涉及主权国家之间的安排。从理论上讲, 法律可以在主权国家运作似乎很奇怪, 因为主权国家都不得不对任何更高权力负责, 最终可以按照自己的意愿行事。不必遵循的法律根本就不是法律, 有些人会说。然而, 尽管这个理论问题, 各国都在实践中, 遵守国际法律。

国际法律源于各民族的结合本身的意愿。一个国家会这样做, 因为遵守法律符合最佳利益。一般来说, 各国在促进的系统规则自身利益的法律, 以促进可预测性和稳定性, 在国际上长期事务。虽然其他国家和国际机构往往缺乏权力强制遵守, 如果一个国家决定的行为违反了国际法律, 仍然可能会有后果。违规国家的形象可能会在国内外受到损害, 可能会实施经济制裁; 总之, 该国可能会失去其他国家相互对待的好处。

当违规行为发生时, 他们很少被公然掩盖, 而且通常不会被他人默默忍受。抗议经常爆发因认为违反国际法律。违规者自己通常会试图以法律理由解释他们的行为, 从而承认法律的权威性和重要性。

国际法律在很大程度上源于三大类: 一般原则, 习惯国际法律和条约。一般原则是世界伟大法律体系共同的基本理解。当倡导者可以表明几乎每个国家都同意一个原则时, 那么这个原则就可以被提升为一个有约束力的国际法规则。一般原则的一个例子是国际诚信原则义务。当然, 一个原则越抽象, 就越容易找到共识, 但实际上解决具体问题的用处就越小。这种悖论将一般原则的实际应用限制在一方无法找到更具体的选择的情况下。

习惯国际法律产生于持续进行的国际行为体包括国家, 国际机构和国际商业组织。法院可考虑实践的国际法律, 如果主张可以表明, 实践中已被普遍遵循, 也已经被这些行动者所接受的法律, 而不是礼貌和方便。证明习惯国际法是非常困难的, 需要大量的证据。

虽然法院可能承认国际法律根据上面提到的方法, 大头国际商业法来源于国家称为条约之间的书面协议。实际上, 条约是国际商业法。相对于一般原则和习惯国际法, 条约具体并

Standard Met/Initials	Competency Areas
	<i>Prerequisite Skills</i>
	Knowledge of the indications, contraindications, and complications associated with inserting a nasopharyngeal airway (NA) insertion
	Understanding of the nursing responsibilities involved with inserting and managing patients with an NA
	Familiarity with equipment and supplies necessary for inserting an NA (e.g., different sizes and types of NAs, water-soluble lubricant, suctioning set up, medications [e.g., topical phenylephrine/Neo-Synephrine, 2% lidocaine gel])
	<i>Preparation</i>
	Reviews facility protocol for NA insertion, if one is available
	Reviews treating clinician's order
	Verifies completion of facility informed consent for non-emergent procedure
	Verifies patient identity per facility protocol
	Gathers necessary supplies and equipment for procedure: <ul style="list-style-type: none"> <li>• Nonsterile gloves; additional personal protective equipment (PPE; e.g., face mask, gown, eye protection) may be necessary if exposure to bodily fluids is anticipated</li> <li>• NA, appropriately sized</li> <li>• Suction source and equipment</li> <li>• Tongue depressor or tongue blade</li> <li>• Optional items include:                             <ul style="list-style-type: none"> <li>◦ Hypoallergenic tape</li> <li>◦ Water soluble gel or 2% lidocaine gel</li> <li>◦ Topical phenylephrine (Neo-Synephrine)</li> <li>◦ Cotton balls, cotton-tipped swabs, and/or tissue</li> </ul> </li> </ul>

执行手部卫生和个人防护装备

根据设施协议识别患者

通过关闭患者房间的门和/或绘制患者床周围的窗帘来建立隐私

如果有的话，并且随时间允许，向患者和家属介绍自我（例如，NTI是计划程序的一部分，而不是紧急干预措施）；解释程序并解决患者和家属的疑虑和焦虑

- 确定患者/家属是否需要特别关注沟通（例如由于文盲，语言障碍或耳聋）；如果他们不在场，可以安排满足这些需求的人
- 当语言障碍存在时，使用专业认证的医疗口译员，无论是亲自或通过电话
- 解释程序及其目的；回答任何问题并根据需要提供情感支持
- 如果患者没有镇静，辅助护士解释插管的目的至关重要，并且无法说话是暂时的，并且将在拔管时得到解决
- 解释说，如果使用袖带式NTT，除非NTT袖带没有适当充气，否则患者在插管时将无法说话
- 在程序开始前讨论和建立通信信号，或提供允许非语言交流的材料（例如，纸张，写字板，图表）
- 适当时，要求家属和其他访客离开病人的房间（例如，为了促进隐私和/或为手术准备环境）

使用设施批准的疼痛评估工具评估患者的一般健康状况，包括生命体征和他/她的疼痛程度

管理处方药物以诱导镇静并消除疼痛的感觉；坚持药物管理的六个“权利” - 正确的患者，正确的药物，正确的剂量，正确的时间，正确的途径和正确的文件 - 以避免药物管理错误

准备鼻孔，咽和NTT

- 内侧鼻孔可以喷洒血管收缩剂
- 后咽可用麻醉剂（例如局部用苯佐卡因）
- 用水溶性或利多卡因凝胶润滑NTT尖端
- 一些临床医生加温NTT的尖端以增加管的柔韧性，以减少NTT通过鼻粘膜时鼻出血的风险

病人的位置

- 将床的高度定位为将插管患者的医生，并锁定床煞车
- 接受全身麻醉的患者通常处于仰卧位，头部处于“嗅”位置（即，将头部延伸至颈部并将颈部弯曲至身体上，以使口部，咽部和喉部解剖轴线对齐，并从喉咙后面抬起舌头），除非颈椎损伤或疾病被怀疑
  - 嗅探位置是插管的最佳位置，因为即使使用经鼻气管路径，当鼻管通过鼻咽和声带前进时，张开的口部允许临床医师在口腔内观察
- 如果患者没有镇静，最佳的患者位置可能坐直，因为它可以防止喉部向后坠落，就像仰卧位一样

对患者进行预氧化：通过一个自充气储液袋阀门面罩装置（如Ambu Bag）给患者多次快速喷气，该装置连接到设置在最大流量

协助临床医生进行

- NTI成人可视化，其步骤通常包括
  - 将润滑的（带放气的袖带）管插入右鼻孔，与脸部成直角并且沿着鼻通道的底部推进NTT，直到声门开口被可视化
  - NTT轻微旋转并与声门开口对齐

Overview

International business is a critical part that shapes the fortunes of individuals and entire nations. This article provides an overview of the sources, content and consequences of the "international business law" that regulates business across borders. The goal is to identify major themes, mechanisms and institutions that govern international business. International business law embraces many specific fields of practice that relate to a wide array of business transactions. Each type of international commerce (export and import of goods and services, foreign direct investment, joint ventures, research and development arrangements, franchising, sale and distribution arrangements and licensing of intellectual property) has a distinct body of law.

To introduce the idea of international law it helps to start by contrasting it with domestic law. Domestic laws are law because a legislature has the power, under our political system, to pass legislation binding people within its jurisdiction. Accordingly, a court has the authority to apply the law. The power to do so comes from the sovereignty of the nation. A sovereign has supreme and ultimate authority over affairs and individuals within its borders and does not have to answer to any higher authority. Each nation is sovereign.

### 法律>国际商法 概观

国际商业是影响个人和整个国家财富的世界经济的重要组成部分。本文概述了管理跨境业务的“国际商业法”的来源，内容和后果。目标是确定管理国际业务的主要主题，机制和机构。国际商业法涵盖了许多与各种商业交易相关的特定实践领域。每种类型的国际（商品和服务的出口和进口，外国直接投资，合资企业，研究和开发安排，特许经营，销售和分销安排以及知识产权许可）具有明确的法律体系。

引进的想法国际法律它有助于通过与国内对比它来启动法律。国内法是法律，因为立法机关在我们的政治制度下有权通过其管辖范围内的人的立法。因此，法院有权适用该法律。这样做的权力来自国家的主权。一个主权者对其境内的事务和个人拥有最高和最终的权力，并且不必回答任何上级当局。每个国家都是主权国家。

在另一方面，国际法律涉及主权国家之间的安排。从理论上讲，法律可以在主权国家运作似乎很奇怪，因为主权国家都不得不对任何更高权力负责，最终可以按照自己的意愿行事。不必遵循的法律根本就不是法律，有些人会说。然而，尽管这个理论问题，各国都在实践中，遵守国际法律。

国际法律源于各民族的结合本身的意愿。一个国家会这样做，因为遵守法律符合最佳利益。一般来说，各国在促进的系统规则自身利益的法律，以促进可预测性和稳定性，在国际上长期事务。虽然其他国家和国际机构往往缺乏权力强制遵守，如果一个国家决定的行为违反了国际法律，仍然可能会有后果。违规国家的形象可能会在国内外受到损害，可能会实施经济制裁; 总之，该国可能会失去其他国家相互对待的好处。

当违规行为发生时，他们很少被公然掩盖，而且通常不会被他人默默忍受。抗议经常爆发因认为违反国际法律。违规者自己通常会试图以法律理由解释他们的行为，从而承认法律的权威性和重要性。

国际法律在很大程度上源于三大类：一般原则，习惯国际法律和条约。一般原则是世界伟大法律体系共同的基本理解。当倡导者可以表明几乎每个国家都同意一个原则时，那么这个原则就可以被提升为一个有约束力的国际法规则。一般原则的一个例子是国际诚信原则义务。当然，一个原则越抽象，就越容易找到共识，但实际上解决具体问题的用处就越小。这种悖论将一般原则的实际应用限制在一方无法找到更具体的选择的情况下。

习惯国际法律产生于持续进行的国际行为体包括国家，国际机构和国际商业组织。法院可考虑实践的国际法律，如果主张可以表明，实践中已被普遍遵循，也已经被这些行动者所接受的法律，而不是礼貌和方便。证明习惯国际法是非常困难的，需要大量的证据。

虽然法院可能承认国际法律根据上面提到的方法，大头国际商业法来源于国家称为条约之间的书面协议。实际上，条约是国际商业法。相对于一般原则和习惯国际法，条约具体并

## Abstract

This article discusses the sources and content of the international business law. Trading nations have entered into a series of treaties and organizations to promote free trade and end discriminatory or isolationist practices. The WTO is the premier organization that negotiates and regulates agreements among nations. This article will take look at the processes that establish international business law and the general features of the law.

## Overview

To introduce the idea of international law it helps to start by contrasting it with domestic law. Domestic laws are law because a legislature has the power, under our political system, to pass legislation binding people within its jurisdiction. Accordingly, a court has the authority to apply the law. The power to do so comes from the sovereignty of the nation. A sovereign has supreme and ultimate authority over affairs and individuals within its borders and does not have to answer to any higher authority. Each nation is sovereign.

On the other hand, international law involves an arrangement between sovereign nations. As a matter of theory, it may seem strange that law could operate on **sovereigns**. An independent state has to account to any higher power. A nation that behaves as they wish. Law that does not have force at all, some would argue. However, despite this theoretical problem, nations do, in practice, obey international law.

International law arises from the willingness of nations to bind itself. A nation will do so because adhering to international law is in its best interest. Generally, nations have a self-interest in creating a systematic rule of law to foster predictability in international affairs over the long term. National and international bodies often lack the authority to enforce compliance, if a nation decides to behave contrary to international law, there still may be consequences. The country's image may be tarnished both at home and abroad; international sanctions may be imposed; in short, the country could lose the benefit of reciprocal treatment from other nations.
